## My arrival in Macedonia

After more than a day of travel i finally arrived in Skopje on December 13, at 3 pm and then i take a bus to Skopje and i take a second bus to Prilep. I didn't really have time to visit Skopje and on the road to Prilep i confess that i slept a lot. A Prilep, i was welcomed by Lela and her friend. Lela bring me to the Police Station to register me, then lela took me to the house where I was going to stay for 2 months.

I've been here since almost three days and I still feel a little lost and nervous but it's just the beginning of this incredible experience.

The staff and members of the SEGA association are really welcoming and kind. The town of Prilep looks very pretty but I haven't visited it yet. I live in a roommate in an old house in a really nice neighborhood.

There are a lot of things different from France here, starting with the language which remains difficult for me, but it is normal I have only been there for 4 days, food is different and the landscape are different of course.
